YEAR 2 IN THE NEWS! As part of the 'British Heart Foundations' campaign to celebrate 65 years of their research, Ivy has been given a 'red bench'. This is to celebrate people who are alive today thanks to the BHF's research. Ivy's bench has its own special plaque, and has been featured in the press and on TV!

Meanwhile Alena has been selected to deliver the match ball in tonight's Europa League game between Nottingham Forrest and Fenerbahce. You can see her at 8pm on TNT, and we'll feature photos next week, as Nottingham hope to return to the magic of the Brian Clough era!

WORLD BOOK DAY is next Thursday 5th March. Dress as your favourite book character for the day! (Please don't send your child in with accessories as they get lost, leading to upset. Thank you)
